Thursday, February 27 3:00 PM EST

Office Hours

NOTES:

- 1. Authoring Period is February 10 to June 5, 2020.
- 2. Each group allows for two weeks of authoring. This is a suggested authoring schedule for newly released conditions. Jurisdictions may author available conditions at their own pace at any time including within this authoring period.
- 3. Content Review and Change Request Period: Open until March 30
- 4. Parkinson's Note: Only states where health care providers are required to report cases of Parkinson's disease (diagnosis or treatment) may only be interested in authoring reporting rules in RCKMS.
